

# 815MM WIDE LED MINIATURE ALPHANUMERIC ROUTE INDICATOR

SIGNAL  
HOUSE  
LIMITED

- **Network Rail Approved**  
[PA05/04911 - Iss. 2]
- **Readability Category 5 - 65m**
- **Single and Double Sided**
- **Stacked units available**
- **Zero Maintenance**
- **LED Illuminator Lightsource [086/001285]**

The LED 815 wide MARI offers a simple solution to more complex indicator requirements. Once again utilising the Signal House LED Illuminator and Fibre Optic arms, both standard and bespoke indications can be achieved without any additional cost.

Due to the added signal width, it enables 4 Aspect indications available in one single height signal.

In addition to the number of Aspects, the signal is capable of showing 5 character indications, for example, "OFF UP/DN" & "CD/RA OFF".

The 815 MARI is the only extra width MARI signal available to the industry.

Operating Voltage Range: 88 - 121V AC

Case Sizes: Single Sided - 815W X 300H X 650L

Double Sided - 815W X 300H X 1200L

Environment: IP54

Weight: Single Sided <40KG. Double Sided <60KG

Aspects: Max 4 Aspects
