

Design Engineer

Collis Engineering Ltd have an exciting opportunity for a proactive Design Engineer to join our busy design department. The ideal candidate will possess strong communication and presentations skills with attention to detail and must be able to work independently and as part of a team.

Main Duties:

- Interpretation of structural, civil and/or mechanical designs into working solutions and preparation of detail and design drawings.
- Interpret technical drawings; work to sketches/development work
- Liaise with colleagues to determine engineering solutions to problems which may arise
- Preparation of detail and design drawings using AutoCAD and/or Inventor software.
- Preparation of calculations as required to prove designs using appropriate software.
- Liaise with company personnel regarding engineering specifications, drawing queries, design briefs, project engineering matters etc.
- To work on the design of new and existing products ensuring cost effective usage of materials and methods.
- Provide technical assistance to sales, purchasing, manufacturing and installation departments.
- Liaise with clients regarding approval of designs.

Required Experience

- 2-3 years post graduate experience, ideally structural/civil related
- Working knowledge of AutoCAD and/or Inventor
- Working knowledge of Bentley Microstation (not essential)
- Working knowledge of Microsoft Word
- Working knowledge of Microsoft Excel
- Knowledge of document control requirements in an industrial environment.
- Awareness of ISO 9001

Expected Qualifications:

- BEng/BSc(Engineering)/HND/HNC
- Engineering Council Registration (optional)

Benefits

- Company Pension Scheme
- Life Assurance plan of 3 x your annual salary
- Subsidised Healthcare provision from Westfield Health
- Benefit hub offering discounts across many well-known online and high street retailers
- Training to help your career development
